EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Freeman on December 31, 1997.

2. The application has been amended as follows:

In the specification, page 4, line 32, --(oxygen reduction potential)-- is placed after "ORP";

Page 5, line 1, --(chemical oxygen demand)-- is placed after "COD";

Claim 6, line 3, "reduced" is deleted;

Claim 45, line 3, --the group consisting of-- is placed before "ORP" and

Claim 45, line 6, --and-- replaces the ",", before "density".

Art Unit: 1111

3. The following is an examiner's statement of reasons for allowance: the meaning of the above abbreviations were inserted in the specification to remove any ambiguity while the change to claim 5 was made to present a proper antecedent basis. US Patent 5,683,724, claim 11, provides support for ORP while Grant and Hackh's Chemical Dictionary, 1987, page 143, provides support for COD.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication should be directed to John S. Maples at telephone number (703) 308-1795.
